

ENGINEERING & CONTRACTING S.A.E. CO.

PORTFOLIO

MAS is a leading family owned firm based in Egypt, emphasizing on engineering, construction and project management.

The company was established as a result of an evolving and restructuring process of MAS Engineering and Construction Itd. becoming a Joint Stock company offering broader business flexibility to its stakeholders and board members.

Our diverse portfolio offers a broad spectrum of project categories ranging from ultra-high-end finishing, landscapes, prefabricated steel structures to reinforced concrete works. We are currently active with projects in numerous locations all over Egypt. No mater how challenging a project is or how remote its location, chances are MAS can handle it. Overcoming such challenges is mastered over 33 years of constructiontion and engineering experience.

SIXTEEN DIVERSE HANDPICKED SIGNATURE PROJECTS

Located in the heart of downtown Cairo, La Viennoise building dates back to the late 1800's. The remake of such an iconic building was an adventure all through its 8000 m² space. The core objective of the project was to revive the buildings old skin and features including its layers of stone, wood and steel.

OVER 40 BANKS

The complexity of bank branches comes in two forms, The first challenge is the coordination between multiple light-current systems along with mechanical equipment. The second challenge comes in the core of the delivery projects' schedule since these types of projects are always of fast-tracked nature.

OPSBA, a joint venture between TOTAL and OIL LIBYA, stands firmly as the largest state of the art oil blending plant in the middle east.

Located in Borg el Arab, the facility built on 35,000 m2 of land includes over 40 tanks (varying from 1500 m3 to 50 m3), over 10,000 m2 production area, and a standalone office building.

As it has always been our aim to maintain our repetitive client policy, ITAMCO 2 is our second major project with **Ghabbour Auto Group**.

Located in Abu Rawash, the project is a landmark that includes over 10,000 m² office spaces, 9000 m² underground parking spaces and 10,000 m² of steel structured hanger that contains 60 busses/trucks service bays.
